

SAVINGS

Recycling is not only good for the environment, it can be great for your bottom line too! CR&R provides recycle bins at a nominal charge. By exchanging a trash bin with a recycle bin, your monthly bill may be significantly reduced. Let us show you how to better manage your waste stream which may allow you to put money back into your property and not in your trash bin.

GETTING STARTED

CR&R will work with your property manager or owner to determine the types of materials you generate and structure a program using the space you have available.

CUSTOMIZED PROGRAMS

CR&R offers waste audits for properties seeking to improve their current recycling and waste programs. A CR&R Recycling Specialist will evaluate your waste stream from the inside out to achieve the most successful recycling program possible.

- Most Plastics Labeled

[no styrofoam]

AB 341

Assembly Bill 341 [AB341] requires all Multifamily properties in California that have more than 4 housing units to recycle. Participating in a CR&R recycling program will assist your property in meeting the recycling requirement. Residents may also donate, sell and/or self haul materials to a recycle facility. Information about California's requirements is available from the California Department of Resources Recycling and Recovery (CalRecycle) at calrecycle.ca.gov/recycle.

AVAILABLE PROGRAMS

BULKY ITEMS

Items that cannot properly fit in your bin, such as a chair or desk, are considered bulky items and require a special pick up. Electronic waste [e-Waste] is anything with a circuit board or battery, such as computers, telephones and copiers. White goods [e.g. refrigerators, freezers] and electronic waste cannot be disposed of in your bin. CR&R will collect and properly dispose of and recycle these items. For more information, please call our customer service department.

HAZARDOUS WASTE

Hazardous wastes are products that are flammable, corrosive, reactive or toxic. They are dangerous to the public and the environment. It is illegal to dispose of hazardous wastes in your CR&R containers. Hazardous wastes must be disposed of properly. For further information about the disposal of hazardous waste, please visit oclandfills.com.

RECYCLE PROGRAMS

1

MIXED RECYCLING

This program recycles materials such as: cardboard, mixed paper, plastic, aluminum and glass bottles. They may be mixed together and placed in a recycling bin.

2

CONSTRUCTION AND DEMOLITION

With construction and demolition [C&D] debris making up a large percentage of all material entering California landfills, CR&R can help you to divert as much as possible through a combination of source separation and mixed processing. Prior to starting your project, contact CR&R to find out what options will work best for your site. Planning ahead will assist you in diverting as much material as possible, as cost effectively as possible.

3

CHRISTMAS TREE RECYCLING

CR&R's Annual Christmas Tree and Holiday Greenery Recycling Program is an excellent way for apartment complexes, town homes, and home owners associations to effectively deal with the removal of additional holiday green waste and eliminate overflow problems with your dumpsters. Your property can schedule to have a delivery of a roll-off bin to collect holiday green waste for recycling. The container would remain on site through New Years with a removal date the following week or later if requested. If the container becomes full prior to the removal date, you may call our Customer Service Department to order an exchange.
