width of the "storefront." For buildings located on corners or freestanding buildings located in a commercial center, frontage shall be considered both the building length and width. 9-42.200 Temporary signs.

The use of temporary banners, pennants, special holiday decorations, and flags in conjunction with special events, grand openings, liquidation sales, real estate open house events, and special events of community-wide significance or seasonal events is subject to the limitations of this section in addition to those previously identified.

A. **Banner/Pennant/Flag Signs and other Temporary Signage.** The use of banners, pennants, flags, and other temporary signage to promote or advertise special events, civic activities, grand openings, holidays, and special seasonal sales is permitted subject to obtaining required permits from the city. The application procedures and requirements for temporary signs are contained in Chapter 9-92 of this title. In addition to temporary sign permits, signs which intend to encroach within, on, or over the public right-of-way shall obtain an encroachment permit from the Public Works Department.

1. A center and/or individual business may be granted a permit to display on-site banners, pennants, and flags for a maximum of forty-five (45) days within a twelve (12) month aggregate period. Time can be accrued in any multiple of consecutive days, up to a maximum of fifteen (15) separate events/occasions, up to a maximum of forty-five (45) days.

2. Banner, pennant, and/or flag signs attached to a building shall not exceed a total aggregate area equal to one square foot per lineal foot of building frontage or an area of twenty-four (24) square feet, whichever is less. Banners erected on approved guywires and standards over public streets or upon public facilities shall not exceed one hundred (100) square feet.

3. Banners, pennants, and/or flags shall be erected or placed only upon the site in which they are intended to advertise. No off-site banners, pennants, and flags shall be permitted except those related to community wide events of significance.

4. No banner, pennant, or flag shall cover more than fifteen (15) percent of the total window area on the building elevation on which they are located, nor shall such temporary signage in concert with permitted permanent window signs exceed forty (40) percent coverage of any window area.

5. The number of pennants and/or flags proposed in conjunction with a temporary use shall be subject to the criteria contained in Table 9-42.090.

6. The design and location of banners, pennants, and/or flags shall compliment rather than detract from site design, architectural and landscape design, and existing permanent signage. Use of any individual location on a site for the display of numerous individual banners, so that said location effectively becomes a permanent location for the display of banners, pennants, and/or flags, is expressly prohibited.

7. Copy shall be limited to wording advertising promotional events including seasonal events, business name, or similar message to identify the event or purpose of the temporary sign.

B. **Political/Election Signs.** Political/election signs, including their supporting structures, shall be permitted on private property and/or public right-of-way in all zoning districts provided that:

1. No person shall install or maintain or cause to be installed or maintained any sign which simulates or imitates in size, color, lettering, or design any traffic sign or signal, or which makes use of the words, "Stop," "Look," or "Danger," or any other words, phrases, symbols, or characters in such a manner as to interfere with, mislead, or confuse traffic.

2. No person shall affix a sign on any public building, street, median, island, sidewalk, traffic signal, utility pole, traffic control device, or tree. Signs are permitted in the landscaped public parkway or public slope area, as long as the sign is two feet from the sidewalk or curb face.

3. Political signs shall not be placed earlier than sixty (60) days prior to the election for which intended, nor remain in place longer than ten days post election.

4. The city may remove signs and store for thirty (30) days signs which otherwise violate this chapter. The property owner shall be notified in writing upon removal by the city and shall have the right to retrieve the sign within thirty (30) days. If a sign is not claimed after thirty (30) days, the city may discard the sign.

5. The city may remove and discard ten days post election any signs posted within the permitted portion of the public right-of-way. Notwithstanding the foregoing, any political election sign which is located on public property in violation of this chapter, may be immediately removed by the city.

6. Nothing in this subsection is intended to permit the installation of signs without permission of the property owner.

C. **Noncommercial Signs.** Noncommercial signs shall be permitted upon any private property in all zoning dis-

tricts. Noncommercial signs shall be subject to the following:

1. No person shall install or maintain or cause to be installed or maintained any sign which simulates or imitates in size, color, lettering, or design any traffic sign or signal, or which makes use of the words, "Stop," "Look," or "Danger," or any other words, phrases, symbols, or characters in such a manner as to interfere with, mislead, or confuse traffic.

2. No illumination shall be provided.

3. Signs shall not extend into any public right-of-way adjacent to the property on which displayed.

4. Nothing in this subsection C is intended to permit the installation of signs without permission of the property owner.

No sign shall be placed upon any private property without the consent of the owner.

For open house signs, the entrance sign shall be in any combination of green and white, or a generic homeowners association sign approved by the Community Development Director, and shall bear the copy "OPEN HOUSE" with an arrow pointing in the appropriate direction. For garage/yard sale signs, entrance sign copy shall be limited to "GARAGE/YARD SALE" and not include the property address. Each sign shall be firmly affixed to a support stake and shall not exceed a height of four feet, and an area of four square feet. Signs may be displayed during the time of the open house but shall not exceed the period between dawn and dusk daily. Open house signs may be located in the public right-of-way, but shall not be attached to fire hydrants, traffic signals, or utility poles, nor placed in any area that may otherwise inhibit or interfere with vehicular or pedestrian traffic.

Garage/yard sale signs shall only be permitted on the day and during the hours of the event and shall not be attached to fire hydrants, traffic signals, or utility poles, nor placed in any area that may otherwise inhibit or interfere with vehicular or pedestrian traffic nor encroach in a public right-of-way.
